

HTML Training

Introduction to HTML

Who Should Do This Course?

Anyone that wants to learn HTML to build websites. Even with programs like Dreamweaver, understanding HTML code is of paramount importance for web developers.

Duration: 1 day

Class size: 10 students max

Times: 9:00am - 5:00pm

Price: Refer to our website for current course and package pricing

After the course?

Each student will receive:

- Certificate of completion
- Training manual
- 12 months FREE email support
- FREE class re-sit (if necessary)

About The Course

This hands-on 1-day course will teach participants how to build a website by hand coding in HTML.

Participants will also learn how to manipulate and tweak HTML generated by WYSIWYG editors like Dreamweaver. Understanding HTML will also allow you to become more proficient at creating style sheets to format your web pages.
